

Journal of Molecular Evolution

Forthcoming Papers

P. Szafranski

On the Evolution of the Bacterial Major Sigma Factors

N. Mounier, M. Gouy, D. Mouchiroud, J. C. Prudhomme

Insect Muscle Actins Differ Distinctly from Invertebrate and Vertebrate Cytoplasmic Actins

P. Cammarano, P. Palm, R. Creti, E. Ceccarelli, A. M. Sanangelantoni, O. Tiboni

Early Evolutionary Relationships among Known Life Forms Inferred from Elongation Factor EF-2/EF-G Sequences: Phylogenetic Coherence and Structure of the Archaeal Domain

S. Nakayama, N. D. Moncrief, R. H. Kretsinger

Evolution of EF-Hand Calcium-Modulated Proteins. II. Domains of Several Subfamilies Have Diverse Evolutionary Histories

M. S. Springer, E. H. Davidson, R. J. Britten

Calculation of Sequence Divergence from the Thermal Stability of DNA Heteroduplexes

Springer International
