

## **Molecular Anthropology: Toward a New Evolutionary Paradigm**

**March 13 and 14, 1995**

**Department of Anatomy and Cell Biology, Wayne State University School of Medicine, 540 East Canfield Avenue, Detroit, MI 48201, USA**

The conference will deal with advances in the study of molecular evolution that relate to the human species. The four working sessions are: Process in Evolution in Complex Genomes; Molecular Evolution in Relation to Phylogeny; DNA Evidence on the Evolutionary History of Primates and Other Mammals; Molecular Evolution in the Human Species.

A public lecture, Molecular Population Genetics and Human Evolution, by Professor Francisco Ayala, President, The American Association for the Advancement of Science, Tuesday March 14, 4:00 PM, is open to the public.

Professionals and qualified students will be accepted for attendance at the working sessions to the extent space permits. For further information or acceptance, please communicate with Prof. Morris Goodman (313) 577-1138, Prof. G.W. Lasker (313) 577-1061, or Prof. Mark Weiss (313) 577-2935. E-mail: mweiss@cms.cc.wayne.edu or mweiss@waynest1 FAX: (313) 577-3125.
