

Journal of Molecular Evolution

Forthcoming Papers

V. M. Kolb, J. P. Dworkin, S. L. Miller

Alternative Bases in the RNA World: The Prebiotic Synthesis of Urazole and Its Ribosides

J. R. Brown, Y. Masuchi, F. T. Robb, W. F. Doolittle

Evolutionary Relationships of Bacterial and Archaeal Glutamine Synthetase Genes

S.-i. Yokobori, M. Hasegawa, T. Ueda, N. Okada, K. Nishikawa, K. Watanabe

Relationship Among Coelacanths, Lungfishes, and Tetrapods: A Phylogenetic Analysis Based on Mitochondrial Cytochrome Oxidase I Gene Sequences

M. Wallis

Variable Evolutionary Rates in the Molecular Evolution of Mammalian Growth Hormones

Springer International
