

Journal of Molecular Evolution

Forthcoming Papers

R. Kondo, S. Horai, Y. Satta, N. Takahata

Evolution of Hominoid Mitochondrial DNA with Special Reference to the Silent Substitution Rate Over the Genome

A. Koga, H. Baba, S. Kusakabe, M. Hattori, T. Mukai

Distribution of Polymorphic Gene Duplication at the *Gpdh* Locus in Natural Populations of *Drosophila melanogaster*

S. J. de Souza, R. Brentani

Sequence Homology Between a Bacterial Metalloproteinase and Eukaryotic Matrix Metalloproteinases

A. Facchiano, F. Facchiano, J. van Renswoude

Divergent Evolution May Link Human Immunodeficiency Virus GP41 to Human CD4

J. Konecny, M. Eckert, M. Schöniger, G. L. Hofacker

Neutral Adaptation of the Genetic Code to Double-Strand Coding

Springer International
