*Erratum*

---

The following correction should be noted to the article entitled, "Affective Exchanges Between Young Autistic Children and Their Mothers," by Geraldine Dawson, Deborah Hill, Art Spencer, Larry Galpert, and Linda Watson (*Journal of Abnormal Child Psychology*, Vol. 18, No. 3, 1990, pp. 335-345).

The sentence beginning on line 10 of the fourth full paragraph on p. 339 of the article is incomplete as printed. The sentence *should* read as follows:

Nonelicited, spontaneous expressions were classified as communicative (apparently directed at mother as indicated by gaze at her face) or noncommunicative (not apparently directed at mother as indicated by gaze).
