

BIBLIOGRAPHY OF STRUCTURALISM II

(1989–1994 and Additions)

Five years have passed since our Bibliography of Structuralism has been published in this journal (cf. *Erkenntnis* 30, 1989). The aim of the present bibliography is twofold: first, we list a number of titles *up to 1989* which we regretfully failed to include five years ago. We gratefully acknowledge the help of many scholars who gave us respective hints. Second, we augment the bibliography by titles which have appeared *since 1989*. Again we must admit that, probably, we missed some contributions which failed to reach our attention. We apologize for that and ask our readers to kindly supply us with the missing information. Last but not least our thanks for technical assistance go to Ms. Katharina Suarez, and Ms. Margit Barrios.
