

SESSIONS OF THE SEMINAR “ALGEBRA i LOGIKA”

1200th session. Sept. 14, 1999.

Yu. L. Ershov, Fields with continuous local elementary properties. IV.

1201st session. Sept. 21, 1999.

A. I. Sozutov (Krasnoyarsk), On groups with finiteness conditions.

V. T. Filippov, Novikov nil-algebras of bounded index.

1202nd session. Sept. 28, 1999.

E. P. Vdovin and D. O. Revin, On Hall subgroups of noneven order in finite groups.

D. M. Smirnov, Varieties defined by permutations.

1203d session. Oct. 5, 1999.

N. Ya. Medvedev (Barnaul), Partial orders on Dlab groups.

E. I. Timoshenko, Universally equivalent solvable groups.

1204th session. Oct. 12, 1999.

V. V. Bludov (Irkutsk), Geometric equivalence of groups and quasivarieties.

V. N. Remeslennikov (Omsk), Algebraic geometry over groups: logical foundations.

M. G. Amaglobeli (Tbilisi, Georgia) and V. N. Remeslennikov (Omsk), G -identities and G -varieties.

1205th session. Oct. 26, 1999.

A. Kh. Zhurtov (Nalchik) and V. D. Mazurov, On Frobenius groups generated by elements of order 3.

I. P. Shestakov, Speciality of Jordan–Lie algebras.
