

- 2) Team-approach in the treatment of hepatocellular carcinoma
Moderators: Kyuichi Tanikawa (Kurume University School of Medicine)
Masatoshi Makuuchi (Shinshu University School of Medicine)
- 3) How we should manage the patient with elevated lesions in the gallbladder
Moderators: Saburo Nakazawa (Fujita-Gakuen Health University School of Medicine)
Kazumichi Nakayama (Kurume University School of Medicine)
- 4) Pathogenesis of the pancreatitis
Moderators: Masanori Matsuno (Tohoku University School of Medicine)
Kei Kashima (Kyoto Prefectural University of Medicine)

Workshops

- 1) Mechanism of intracellular signal transduction
Moderators: Tsutomu Chiba (Kobe University School of Medicine)
Koji Yakabi (Teikyo University School of Medicine)
- 2) Nutritional assessment in gastroenterology
Moderators: Shohei Ogoshi (Kochi Medical School)
Yasuyuki Arakawa (Nihon University School of Medicine)
- 3) Treatment of peptic ulcer disease
Moderators: Haruki Mori (Tokyo Women's Medical College)
Masaki Kitajima (Kyorin University School of Medicine)

THE SECOND WORLD CONGRESS ON BILIARY LITHOTRIPSY

May 10-11, 1991 – Chiba, Japan

The Second World Congress on Biliary Lithotripsy will be held at the Nippon Convention Center in Chiba, Japan on May 10-11, 1991.

Co-Chairmen

Masao Ohto (Chiba, Japan), Hans Fromm (Washington, DC, USA), and Gerald Salen (New York, USA)

Scientific Committee Advisors

Yukihiro Tsuchiya (Chiba, Japan), Toshiaki Osuga (Tsukuba, Japan), and Michael B. Albert (Washington, DC, USA)

Preliminary Topics

1. Efficacy and safety of ESWL: Experimental data
2. Indication of ESWL: Patients and gallstones
3. Gallstone imaging
4. Clinical data on ESWL

5. Comparison of various lithotriptors
6. Adjuvant bile acid therapy
7. Recurrence of gallstones after successful ESWL: Prevention and management
8. Use of ESWL for bile duct stones
9. Other biliary lithotripsy: Percutaneous and endoscopic approaches

For further information, please contact:

The Secretariat of the Second World Congress on Biliary Lithotripsy

The First Department of Medicine, Chiba University School of Medicine, 1-8-1 Inohana, Chiba 280, Japan.

**THE SEVENTH INTERNATIONAL CONFERENCE ON EXPERIMENTAL ULCER
October 15–18, 1991 – Berlin, Germany**

The 7th International Conference on Experimental Ulcer will take place in Berlin on October 15–18, 1991 immediately before the European DDW in Amsterdam. Main topics and lectures will be:

- Cell biology of the gastric mucosal cells
- Receptors of gastroduodenal mucosa
- Noxious agents for the gastroduodenal mucosa
- Mediators in gastroduodenal lesions
- Cell kinetics of the gastric mucosal cells
- Repair mechanism of gastroduodenal lesions
- Angiogenesis of gastric mucosa
- Gastric mucosal infections
- New drugs for ulcer treatment
- Ethics in research
- The role of new biology in drug development
