In our original paper (DOI [10.1007/s00025-017-0716-2](https://doi.org/10.1007/s00025-017-0716-2)), we study the generalised hyperstability results for Radical cubic functional equation in non-Archimedean metric spaces. In the present paper, I need to carry out the following corrections:

- In Theorem 3.1 and Corollary 3.1,  $\lim_{n \rightarrow \infty} s_1(n)s_2(-n) = 0$  must be

$$\lim_{n \rightarrow \infty} s_1(n)s_2(1-n) = 0.$$

- Above Remark 1 by two lines,  $\lim_{m \rightarrow \infty} s_1(m)s_2(-m) = 0$  must be

$$\lim_{m \rightarrow \infty} s_1(m)s_2(1-m) = 0.$$
