CORRECTION

Correction to: Spatial coefficient of variation applied to arterial spin labeling MRI may contribute to predict surgical revascularization outcomes in pediatric moyamoya vasculopathy

Correction to: Neuroradiology (2020) https://doi.org/10.1007/s00234-020-02446-4

This article was published online with incorrect alignment in Table 4. Column and rows are out of order. The correct Table 4 is presented here. The original article has been corrected.

Table 4 Correlations between perfusion parameters evaluated at each time points and long-term clinical outcome at 24 months after surgery

| Perfusion Parameter | Pre-surgery | | 6 months | | 12 months | | 24 months | |
|---------------------|-------------|-------|----------|------|-----------|------|-----------|------|
| | Rho | Р | Rho | Р | Rho | Р | Rho | Р |
| ASL-sCoV | -0.621 | <.001 | -0.551 | .001 | -0.487 | .003 | -0.389 | .007 |
| ASL-CBF | -0.117 | .492 | 0.163 | .371 | 0.217 | .112 | 0.417 | .028 |
| DSC-CBF | 0.258 | .153 | 0.276 | .202 | 0.228 | .333 | 0.558 | .014 |
| DSC-TTP | -0.301 | .041 | -0.513 | .012 | -0.426 | .027 | -0.501 | .002 |

Rho indicates Spearman's rho coefficient; P indicates significance level of the correlation analysis; the values reported in italics are statistically significant
