Page 5, Table 1, row 3, column 1: The text c_1 should read as C_l. The updated table has been copied below:

The original article has been corrected.

Table 1 Notation

Notation	Description
c	Unit manufacturing cost of the manufacturer
C_l	Unit cost of the 3PL enterprise
c_s	Logistics service cost of the 3PL enterprise
i_r	Financing interest rate for the retailer
i_m	Financing interest rate for the manufacturer
B_r	Retailer's initial capital
B_m	Manufacturer's initial capital
d	Basic market demand
b	The sensitivity of the market demand to the retail price, referred to as the price sensitivity coefficient
θ	The sensitivity of the market demand to the logistics service level, referred to as the logistics service sensitivity coefficient
η	Logistics service cost efficiency
p	Retailer's unit retail price (decision variable)
Q	Retailer's order quantity from the manufacturer (decision variable)
w	Manufacturer's wholesale price for each unit of the product (decision variable)
l	3PL enterprise's unit logistics service price (decision variable)
ζ	3PL enterprise's logistics service level (decision variable)
