In Coutts et al. (2015), regarding the equation for calculating mean radiant temperature (t_{mrt}) using the black globe thermometers, a typographical error was made during the manuscript editing process. The equation should read:

$$t_{mrt} = \sqrt[4]{(t_g + 273.15)^4 + \frac{h_{C_g}}{\varepsilon \sigma_g^{0.4}} (t_g - t_a) - 273.15}$$

All terms are defined in Coutts et al. (2015). The error was typographical and does not affect the paper content or findings.

The online version of the original article can be found at <http://dx.doi.org/10.1007/s00704-015-1409-y>.
