In this article, Tables 1 and 23 contains errors, using information and results from an incorrectly processed version of the Covid3Month_disc, FloodModeling1_disc, FloodModeling2_disc and FloodModeling3_disc datasets. Other tables, figures and text mentioning these datasets use the correct version.

The “Test size” column in Table 1 should report 61 for Covid3Month_disc, 202 for FloodModeling1_disc, 201 for FloodModeling2_disc and 184 for FloodModeling3_disc.

The correct values for Table 23 on the 4 datasets are available below and on the accompanying webpage alongside other results files (https://tsml-eval.readthedocs.io/en/stable/publications/2023/tsc_bakeoff/tsc_bakeoff_2023.html).
