**Correction to: J Supercond Nov Magn (2016) 29:2887–2897**  
<https://doi.org/10.1007/s10948-016-3604-1>

The original article requires minor corrections.

In synthesis section (page No. 2888) the calcination temperature has been inadvertently mentioned as “450 °C for 1 h”, but it should be read as “300 °C for 1 h”.

In Table 1 (page No. 2889) the unit for Raman modes not mentioned and the unit is “ $cm^{-1}$ ”.

The discussions and conclusion are not altered by this correction.

The authors regret for the oversight.
