RETRACTION NOTE

Retraction Note: Development of video compression using EWNS linear transformation and un-repetition simulated contrary based resurgence procedure

R. Karthik Ganesh[1] · R. Kanthavel[2] · R. Dhaya[3]

Retraction to: Multimedia Tools and Applications (2020) 79:3519–3541
https://doi.org/10.1007/s11042-018-6008-3

The Editor-in-Chief and the publisher have retracted this article. The article was submitted to be part of a guest-edited issue. An investigation by the publisher found a number of articles, including this one, with a number of concerns, including but not limited to compromised editorial handling and peer review process, inappropriate or irrelevant references or not being in scope of the journal or guest-edited issue. Based on the investigation's findings the Editor-in-Chief therefore no longer has confidence in the results and conclusions of this article. R. Karthik Ganesh and R. Dhaya have not responded to any correspondence from the editor/publisher about this retraction. The Publisher has not been able to obtain a current email address for R. Kanthavel.

Publisher's note Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.
