Correction to: Population Research and Policy Review (2022) 41:2393–2418
<https://doi.org/10.1007/s11113-022-09735-1>

Due to a codebook error, the statistics reported for the traditional gender attitudes variable in November 2020 are incorrect (as reported in Table 1). The correct mean and standard deviation for this variable are 1.91 and 0.04, respectively, and there is no statistically significant difference in traditional gender attitudes across the three time points (March 2020, April 2020, November 2020).

The original article has been corrected.

The original article can be found online at <https://doi.org/10.1007/s11113-022-09735-1>.
