### Erratum to: Clin Orthop Relat Res DOI 10.1007/s11999-016-4806-3

In the study, “What Is the Role of Allogeneic Cortical Strut Grafts in the Treatment of Fibrous Dysplasia of the Proximal Femur?” the first sentence in the Background section

of the Abstract was incorrectly changed during the editing process. The sentence should read: “Fibrous dysplasia of the proximal femur is a progressive, often recurrent condition of bone that can cause skeletal deformity, fractures, and pain.”

We apologize for the error.
