The Electronic Supplementary Material available online erroneously only contains the first six pages of the entire supplementary material file. You will find the entire supplementary material file online linked to this publisher's erratum. The publisher apologizes to the authors and readers for this mistake.

Electronic Supplementary Material: Supplementary material (detailed description on procedures, and further characterizations, including synthesis, optimization, and characterization of Cd_{NCS}, HA-Cd_{NCS}, and DOX- HA-Cd_{NCS}; calculating quantum yield; a Jellium model for assigning the most valid number of the atoms in the NCS; drug loading and release; cellular uptake and cytotoxicity) is available in the online version of this article at <https://doi.org/10.1007/s12274-016-1201-z>.

The online version of the original article can be found at
