

Reviewer acknowledgments—ASD 2023

Published online: 14 March 2024

© INRAE and Springer-Verlag France SAS, part of Springer Nature 2024

The editors-in-chief would like to sincerely thank all the reviewers who ensured the rigorous, considerate, and constructive evaluations of articles submitted to ASD during the year 2023. Through your voluntary work and the sharing of your skills, you have raised our standards, highlighted the novelty of research, encouraged authors to clarify their messages, removed uncertainties in data processing, and opened up new avenues of discussion. Your conscientious work has improved the scientific quality of the published research articles, reviews, and meta-analyses, rendering the journal more attractive to its readers. All this has enabled the journal to consolidate its metrics and to emerge in 2023 as the leading journal in agronomy.
