

## ACKNOWLEDGEMENT TO REFEREES

© Springer Nature Switzerland AG 2018

Dear Reader,

As we reach the final issue of *CNS Drugs* for 2018, we wish to reflect on another successful year's achievements, and to thank all those who have contributed their time and effort to guarantee the high quality of our content.

2018 was a successful year for *CNS Drugs*. Over 80 articles have been published; the most popular of these, in terms of downloads from SpringerLink, have been:

- J Quezada, KA Coffman. Current Approaches and New Developments in the Pharmacological Management of Tourette Syndrome
- TL Wigal, JH Newcorn, N Handal et al. A Double-Blind, Placebo-Controlled, Phase II Study to Determine the Efficacy, Safety, Tolerability and Pharmacokinetics of a Controlled Release (CR) Formulation of Mazindol in Adults with DSM-5 Attention-Deficit/Hyperactivity Disorder (ADHD)
- LW Elmer, JL Juncos, C Singer et al. Pooled Analyses of Phase III Studies of ADS-5102 (Amantadine) Extended-Release Capsules for Dyskinesia in Parkinson's Disease
- JA Hey, P Kocis, J Hort et al. Discovery and Identification of an Endogenous Metabolite of Tramiprosate and Its Prodrug ALZ-801 that Inhibits Beta Amyloid Oligomer Formation in the Human Brain
- B Weinstock-Guttman, J Medin, N Khan et al. Assessing 'No Evidence of Disease Activity' Status in Patients with Relapsing-Remitting Multiple Sclerosis Receiving Fingolimod in Routine Clinical Practice: A Retrospective Analysis of the Multiple Sclerosis Clinical and Magnetic Resonance Imaging Outcomes in the USA (MS-MRIUS) Study
- S Faissner, R Gold. Efficacy and Safety of the Newer Multiple Sclerosis Drugs Approved Since 2010
- DR Coghill, T Banaschewski, C Bliss et al. Cognitive Function of Children and Adolescents with Attention-Deficit/Hyperactivity Disorder in a 2-Year Open-Label Study of Lisdexamfetamine Dimesylate
- AK Jönsson, J Schill, H Olsson et al. Venous Thromboembolism During Treatment with Antipsychotics: A Review of Current Evidence
- MW Jann, SR Penzak. Long-Acting Injectable Second-Generation Antipsychotics: An Update and Comparison Between Agents
- P Damkier, P Videbech. The Safety of Second-Generation Antipsychotics During Pregnancy: A Clinically Focused Review

The quality of articles published in the journal is also reflected in its most recent impact factor (4.206). *CNS Drugs* is currently ranked 38th in the 'Clinical Neurology' category (of 197 journals) and 27th in the 'Psychiatry' category (of 142 journals).

Other journals in the Adis Premier Journals Portfolio (<http://www.springer.com/gp/adis>) continue to prosper, with substantial increases in usage year-on-year. In addition, this year has seen *Applied Health Economics and Health Policy* receive its first impact factor.

We thank the authors who have contributed articles to *CNS Drugs* over the course of 2018. The skill and dedication of all authors are critical to the continued publication of the journal. The quality of published articles is also testament to the significant efforts of the peer reviewers, whose commitment ensures that the journal's content is held to the highest possible standard. We would like to thank the following individuals who acted as reviewers for *CNS Drugs* in the last 12 months:

*Marie A. Abate*, USA  
*James B. Adams*, USA  
*Harold P. Adams*, USA  
*Giovanni Addolorato*, Italy
