ERRATUM

Albert Dahan, Ann Dunne, Maarten Swartjes, Paolo L Proto, Lara Heij, Oscar Vogels, Monique van Velzen, Elise Sarton, Marieke Niesters, Martijn R Tannemaat, Anthony Cerami, and Michael Brines. (2013) ARA 290 Improves Symptoms in Patients with Sarcoidosis-Associated Small Nerve Fiber Loss and Increases Corneal Nerve Fiber Density. *Mol. Med.* 19:334–45.

In this paper, there was an arithmetical error in the original corneal nerve fiber area algorithm; the reported corneal nerve fiber area values are too small. To obtain the correct corneal nerve fiber values, multiply by 2.26. To normalize corneal nerve fiber area per mm^2 (i.e., $\mu m^2/mm^2$) multiply the corrected value by 6.32. The authors regret this oversight.
