### Correction to: Mem Cogn

<https://doi.org/10.3758/s13421-020-01105-6>

The following affiliation for the two authors of this article was missing in the article as originally published:

University of Muenster, Münster, Germany.

Also, in the original article, the following links to these sub-chapters: Abstract, Experiment 1, Experiment 2, Results experiment 2, General discussion. This should be: Abstract, Experiment 1, Experiment 2, General Discussion. In addition: for Experiment 1, the subheaders (e.g., Participants, Procedure) have a different size/level compared to subheaders in Experiment 2. They should have the same header level. The design of the headers in Experiment 2 should be the same as in Experiment 1.

The original article has been corrected.

**Publisher's note** Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.
